How many market lambs did you keep records on this year? \_\_\_\_\_

1. What was the purchase price of your market lamb(s)? \$ \_\_\_\_\_

2. What was the cost of the feed you fed your market lamb(s)? \$ \_\_\_\_\_

3. What is the estimated cost of bedding, veterinary bills and any other supplies you used for your market lamb(s) this year? \$ \_\_\_\_\_

What are your total costs for this market lamb project? \$ \_\_\_\_\_  
*(Add lines 1, 2, and 3)*

A. What was the total weight of the market lamb(s) you showed this year? \_\_\_\_\_ lbs.  
*If you showed multiple market lambs at the fair, add all weights together.*

B. Today the market price for lambs is \_\_\_\_\_. What is your return if you shipped the lamb(s) rather than going through the Meat Animal Sale? \$ \_\_\_\_\_  
*If your lamb(s) weigh 268 pounds, multiply 2.68 times the market price, as the market price is quoted per 100 pounds. Remember to add the weights for all lambs together.*

C. If you shipped your lamb(s) instead of coming to the fair, what would your profit or loss for this project be? \$ \_\_\_\_\_  
*Subtract your costs from your return for selling the lamb(s) at market. Put a (parenthesis) around a negative number.*

D. Take your price received for the Meat Animal Sale for each lamb and multiply it by the weight of the lamb. \$ \_\_\_\_\_  
*Example: 250 pound pig times \$2.50 is \$625.00. If you have more than one lamb, add the totals together.*

E. What is the premium you have received from the privilege of selling at the Meat Animal Sale? \$ \_\_\_\_\_  
*Subtract the market price line B from the Meat Animal Sale price line D.*
