LET'S GET STARTED!

Welcome to the 2020-2021 4-H program year! We hope this will be a fantastic year of learning and fun for your family. One of the most unique things about 4-H is that it allows members to develop expertise in areas of study that interest them. Then, it provides them with a variety of opportunities to pass their knowledge on to other kids!

What will you become an expert in?

Make a list of the things you would like to do or learn more about. Talk over your list with your parents, leaders and friends. They may recognize some special things you are good at that you do not realize you do well, and that may influence what you will choose.

- Compare your list with the projects described in this guide. Ask yourself if you have the equipment, money and time to do the projects that sound interesting.
- Finally, consider who will help you learn and grow in your project. This might be a club project leader, countywide 4-H project committees, a friend, or a relative. If you need help finding a leader, please contact the Extension Office and we will assist you with locating possible leaders for the project/s that most interest you!

Enrolling in 4-H is a Two-Step Process:

Enrolling in 4-H requires two things: 1) paying your individual 4-H program fees to your club and 2) enrolling as a member in 4-H Online. Both of these things must occur **by December 1 for re-enrolling members** (who were members of 4-H last year) and **by May 1 for new enrollees.** Check with your local club leader to find out how much the program fees are for your club. County enrollment fees are $12 annually for members in grades 3-13 and $6 for Cloverbuds (grades K-2). However, some clubs have additional fees to offset club expenses or cover known annual expenses. The sooner new members enroll, the sooner they will start receiving project-specific emails and information.

Literature:

When you enroll in 4-H projects, you may wish to purchase the corresponding project literature if any is available. The literature provides activities and research-based information that can guide your learning. If you wish to order note where it can be purchased, it is listed directly under the project description in this guide. Then, refer to page 17 for the link and contact information for that literature provider (e.g. Shop 4-H).

Re-Enrolling in 4-H:

If you were a Walworth County 4-H member/leader in 2019-2020, you are a re-enrolling 4-H member/leader this year. This means that you will need to sign into your existing account and update your 4-H Online account information, choose your 4-H club and projects. Your years in 4-H and school grade level will automatically increase a year, and you can focus on tweaking your address, email, phone number, health info, etc. if anything changes. If you are re-enrolling, you must sign up for at least one project **no later than December 1** in order to be eligible to show in the Junior Department at our 2021 Walworth County Fair. You will have until May 1 to add and drop projects. After May 1, you will be able to view your 4-H Online account info, but you will no longer be able to modify it. To re-enroll, follow the directions in the 4-H Online 2.0 Family Enrollment Guide starting on page 19, in this packet.

Enrolling as a new member or leader:

For new family enrollment, you will need to access the website: http://wi.4honline.com and follow the directions in the 4-H Online 2.0 Family Enrollment Guide starting on page 20, in this packet. 4HOnline is easy to use and will give your family the opportunity to review and update your information as needed. Your account will be available for viewing 24-7 year round. You may enroll members of your family in 4-H using this system anytime **between October 1 and May 1.** (This time frame is the required enrollment period in order for members to be eligible to participate in the 2021 Walworth County Fair Junior Department.) After May 1, new families are welcome to enroll, but will not be eligible to show at the Walworth County fair. To enroll after May 1, contact the Extension office at 262-741-4954 for help. Be aware that some animal projects have ownership deadlines for various animals that may be significantly earlier than May 1.

Questions? Call the UW-Extension office at 262-741-4954. We will be glad to help!
