## Prepping Geoffrey & Your Photo Props for Pics...

Get Geoffrey ready for picture-taking by cutting him out and taping the paint stick provided in your packet to his back (for stability). Let a few inches of the stick suspend below his feet so that you can hold him up for selfies and prop him up in pics.

Prep the photo booth props by cutting them out and attaching a craft stick, straw, or dowel rod to the back with tape. Just like when you attach the paint stick to Geoffrey, adding one of these items to each prop creates handles that make them easy to use in your pics.
