

*Walworth County 4-H Science Lab Opportunity*

# Eggsploring Incubation

**EGGSPLORE THE MIRACLE OF LIFE  
HANDS-ON WITH YOUR STUDENTS.**

The *Eggsploring Incubation 4-H Science Lab* program provides a unique, highly engaging opportunity to explore the fragility of life, teamwork, self-responsibility, and contributions to a group effort.

Open to Walworth County teachers of grades 5K-12, the three-four week program provides classrooms with the supplies needed to incubate, hatch, and care for baby birds—either chicks or ducklings. All teachers and students need to add is a little TLC and creativity. Teachers who sign up will have access to fun lesson ideas, posters, and more! Automatic turners come with the incubators to make incubation more manageable over the weekends. The Extension Office arranges homes for your babies, and help is always just a phone call away.

Cost per classroom is **\$20 for chicks** and **\$30 for ducklings**. If you plan to use your own incubator, be prepared to tell how many eggs it holds when you call to sign up. There is a limit of 5 classrooms hatching ducklings.

## **2021 PROGRAM DATES.**

April 6 - April 30 for chicks

April 6- May 7 for ducklings

## **SIGN UP.**

Registration deadline is March 12 at noon or when equipment/egg availability is depleted— whichever comes first. Both equipment and eggs are limited and registrations will be accepted on a first call, first reserve basis. Call 262-379-9784 or email [deborah.harris@wisc.edu](mailto:deborah.harris@wisc.edu) to check equipment availability and sign-up BEFORE mailing in the registration form. Additionally, please realize that hatches are NOT guaranteed, and refunds won't be made for eggs that don't hatch.

The University of Wisconsin-Madison Division of Extension is an EEO/AA institution committed to diversity among its employees and in its programs.
