

Swine Flu Agreement

The purpose of this policy is to determine a course of action should signs of a Swine Flu infection occur.

Any hog diagnosed by the Fair veterinarians with any signs of lethargy, high rectal temperature and/or coughing must be removed from the fairgrounds immediately.

If sent home before the show, unfortunately the hog cannot be sold at the sale. If your hog is sent home after the show, you can sell at the sale. It will be the exhibitor's responsibility to take the hog to the locker if that is its destination. Lockers will be asked to give you priority for a processing appointment.

If the hog is to be marketed, the Meat Animal Sale will deduct market price from the exhibitor's check and exhibitor will be responsible to market the hog. The exhibitor and parent/guardian shall be responsible to observe all drug withdrawal requirements, if the animal is treated.

I have read and understand the above policy.
